## SUMMARY

- Passionate and skilled software developer with experience in UI/UX design, web, and mobile app development. Proficient in React, Java, and full-stack development, with a strong focus on creating user-friendly and efficient applications. Developed the UI/UX for Smart Gebere, a mobile app for farmers, and built a hotel management web app using React. Successfully created Betachn, a Java-based web platform that connects renters, buyers, and house owners without third-party involvement. Also contributed to a university project based on Half-Life, gaining experience in App development. Currently pursuing a degree at Adama Science and Technology University.

## WORK EXPERIENCE

**Software Developer │ Freelance/Project-Based**                    **Jan 2022 - Present**

- **Smart Gebere** – Developed UI/UX and functionality for a mobile app for farmers, enhancing agricultural resource management.
- **Hotel Management Web App** – Building a React-based application for hotel management, focusing on scalability and user experience.
- **Betachn Web App** – Developed a Java-based platform that connects renters, buyers, and homeowners without third-party involvement as part of an advanced programming course project.
- **UI/UX Development** – Designed and implemented user-friendly interfaces across multiple projects, improving usability and accessibility.
- **Half-Life University Project** – Gained experience in App development and software engineering through a university project inspired by Half-Life.

## EDUCATION

**Adama Science and Technology University**
Bachelor's Degree in [Software Engineering]
Expected Graduation Year [2027]

## ADDITIONAL INFORMATION

- **Technical Skills:** Project Management, Drawing, 3D animations
- **Languages:** English, Amharic
- **Certifications:** e-she,
